To Whomsoever It May Concern

This has to certify that Sushil Gupta has completed an internship project with Baavlibuch from 24th August, 2023 to 30th November, 2023. He has worked on the development of a chatbot for patient education and compliance.

He worked on the following aspects of the chatbot -

1. Development of chatbot behavior verification tool
2. Dialog graph visualization tool
3. Authentication and authorization

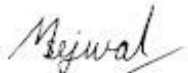

He used the following technologies, tools, frameworks and algorithms –

1. MERN stack
2. D3
3. Redux
4. BFS tree traversal
5. Git and Gitub

During this tenure, we found him hard working and him conduct was good during the project.

We wish him the best in all future endeavors.

Regards,
